

MAINTENANCE GUIDE / BLUE MARINE MARBLE

Please read the following maintenance guide before using your new Blue Marine Marble product to ensure a well-protected and beautiful surface.

BEFORE USING THE PRODUCT / Before first-time use we recommend sealing the marble with Guardian Stone Sealer. Please follow the instructions on the bottle. It is important to proof all marble surfaces and sides of the product. Please notice that the sealing effect decreases with time.

DAILY MAINTENANCE / Use a lint-free cloth and wipe immediately after spills. Never use strong soap or cleaning products as this will dissolve and remove the protective Stone Sealer from the surface.

ONGOING MAINTENANCE / The effect of the sealing decreases continuously, and therefore we recommend sealing the marble several times a year - approximately 3-6 times.

CORRECT MAINTENANCE IS IMPORTANT / Depending on natural conditions the colour and pattern of the marble will vary. The Stone Sealer has a neutral colour and will not affect the look of the marble. Repeat the sealing when needed to protect the marble surface against stains.

If any further questions, feel free to contact MUUBS.
