

MAINTENANCE GUIDE / POLY RATTAN

Before using your new poly rattan product, please read this guide to ensure a well-protected durable product.

POLY RATTAN PRODUCTS / Poly rattan is a long-lasting, durable and UV resistant material that can withstand all kinds of weather. It is a popular material for all kinds of outdoor furniture due to the easy maintenance.

ONGOING MAINTENANCE / Maintaining your poly rattan is easy since it's a weather proof material, but poly rattan still needs to be cleaned regularly as dust and dirt accumulate in the fiber weave and can tear the material. We recommend Guardian Poly Wash that is designed specifically for cleaning and caring for polyrattan, protecting against algae and dirt to avoid that the poly rattan degrades.

CORRECT MAINTENANCE IS IMPORTANT / Store poly rattan dry and cool during winter.

All maintenance products mentioned can be bought at muubs.com. For questions, please contact Muubs.
